We love our family of rescue cats, but due to our need to relocate to Seattle for employment, we sadly must re-home some of the kitties. WILSON is a well-traveled cat at the age of 11. On a trip in 2003 with my Dad we traveled to his hometown -- Wilson, Kansas. This little ball of fur with blue eyes that were not quite open was in the Wilson Cemetery the evening we arrived. The next morning, we found this same ball of fur at the grave-site where we were leaving flowers. I took it as a sign and on the way out of town we stopped at a store for a kitty carrier, some bedding and kitty formula -- he stayed with us for the remainder of the 2-week trip. Wilson and my Dad bonded in the backseat of the car, and he became my Dad's cat until Dad passed away. Wilson is all white, except for gray on his head and the end of his tail. Wilson loves older men, loves to sleep, and occasionally will follow you until you pick him up for a petting session. He was an inside-outside cat while we lived on the farm, but has been an inside cat in Boise. If he goes outside, he may climb trees and leap into the next.
