So you know all about the dog fighting that goes on in NH huh?

If so why are you not reporting it to the police instead of posting vague scary things on CL?

Oh that is right the animal rights fanatics managed to kill the bill that would REQUIRE them to REPORT animal abuse to the police because they'd rather use the information as propaganda and to raise funds than actually save any animals...

So either you don't know anything at all and just like to try to scare people out of re-homing their own pets in order to increase profit margins for your own animal sales OR you know and are not helping to resolve the problem by reporting it to authorities.

Or maybe its both - you want to increase your profits and you don't care about the laws protecting animals in this state as long as you can fling propaganda around.
