I am a 19 year old guitarist/vocalist looking for an indie rock band. I've played over 100 shows in my life span with my old bands and just recently moved to the St Louis area. I'm open to other ideas but I'm mainly look for a bassist and drummer for a three piece but would also be very happy adding a keys/synth player. Looking for people around my age who are dedicated, reliable (had some bad luck with people flaking out on here), and focused on having a kick ass band. I know many places I'd easily be able to get us into including venues, festivals, and radio interviews. My influences include but are not limited to: Tame impala, the strokes, arctic monkeys, flaming lips, cream, pink floyd, radio moscow, bloc party (silent alarm cd), wolfmother, black angels, dead meadow, cage the elephant, nicholas allbrook, the doors.

I have transportation and some pro guitar gear.

Hit me!
