My kids lost their beloved Chihuahua in Grand Island, close to Knickrehm elementary. Please text if you have information. We saw him go into the neighbors yard, immediately went outside to get him and he was gone. Has tag and microchipped. Will be reported stolen if not returned soon so that they can keep an eye out for him. Right now we just figure someone picked him up to keep him safe but our numbers are on the tag if he didn't lose it on the fence. He is loved by two young children who are sick without him. Please help! My son is sure that he was picked up by someone driving a red and black dually truck with a flat bed. He is a tiny little boy...
