If your computer has been inflicted with any type of virus, needs to be assessed for repaired for physical problems, I'm your guy. Once I have your device, I do everything to return it in 110% condition, as fast as possible.

If you want to find a good deal on a PC, build your own, or get a gaming rig, I can help.
I'm also just generally good with electronics, I can do anything from rooting a phone, to recovering files from hard drives.
