

Divorce now without the endless delay and high costs of litigated divorce with professional, licensed divorce mediation. May be used with, or without, attorneys. Why make the process more difficult and expensive during difficult economic times?

We can also resolve post-divorce issues such as a parent withholding of children for Parent Time or failure to pay Child Support. Receive the parenting time and child support your children need. Keep your costs to a minimum while protecting your children.

We assist parents and children before, during and/or after the divorce and resolve issues either not addressed, or poorly addressed, by other attorneys and/or mediators. We can complete the entire divorce process, from beginning to end, without the use of attorneys if that is desired.

Unlike many other providers, mediation does NOT require that you have reached any agreement with the other parent / party in advance. If agreement on some items has already been reached, we can use those individual agreements to facilitate the process while minimizing costs.
