

Daycare for working parents (Milton)

Location **Vermont**
<https://www.genclassifieds.com/x-261213-z>

I am a mother of two. I have over 8 years experience I wanted to start my own in home daycare that helps the parents out. It's important for children to have socialiation with children of different ages and to learn through playing. I can provide all that and more.

I am open Mondays-Saturdays from 6am-8pm I do realize people have to work late and if you need me later please let me know. I understand parents have strange and unusual hours. I am also available on the weekends. I graduated from CCV with a pareducator degree and A.A. in Liberal Arts and Early Childhood Education. I am also CPR certified. I provide the meals for the children and snacks. We have story time, singing, dancing, and educational time with ABC's and etc. I am also apart of the scholastic book club and the red apple teacher we get work books that i pay for from scholastic and printouts. We do lots of projects and spend all the time we can outside, either learning about bugs and flowers or just playing.Right now we are starting to learn sign language. I charge \$140.00 full time. I charge \$38.00 a day part-time, I don't charge when children don't attend. I also offer a sibling discount. I have over 10 years experience. I have worked at MBS for CCV work study and Milton family community center for one of my classes. I think Redirection for children is very import. If you have any questions feel free to email me. I have references from parents and friends. You can ask my parents I am very flexible and a trusting person. I am very reliable and I am very easy going. two full-time spot now and two part-time spot. I have nights and weekends fully open.
