Woodsong Naturals Farm is offering 2015 local produce to our friends in RVA! We are a small farm committed to using only organic practices for all of our produce and other local products. We grow delicious pesticide-free produce, you let us know which of our produce options you want, then pick it up weekly at a drop-off site near your home. Unlike a CSA, where you have to provide a large sum of capital up-front without any assurance of actual return, we have structured our marketing so that there is no contract, and you do not need to make an order regularly. If you are interested in signing up for the 2015 season emails, or would simply like to know more information about us or any of our products, you can email us to let us know that you would like to join with us in our passion for natural, sustainable, local food.

Note to well-meaning craigslist users: We are an actual farm and strive to serve our customers in a professional manner. Please do not flag. Thank.
