

# IT FIELD ENGINEERS NEEDED (SEATTLE)

Location **Washington**  
<https://www.genclassifieds.com/x-261250-z>

I am looking for 2 Techs that I can keep pretty busy!!! I can not stress enough a reliable car is needed!!!

The Field Technician will perform repair and installation dispatches for Computer Networking, Basic Wide Area Networking and telecom network equipment. The majority of field technician's time would be spent doing hands on installation and repair of new service and repair of existing installations while maintaining job time-lines. Field Technician must rely on previous experiences and a high level of judgment to maintain quality standards and improve productivity. Installation work includes the physical placement of cross-connects, category 5e cable, wall jacks, hardware, and communications equipment. Repair work involves swapping customer premise equipment (CPE), troubleshooting inside wiring (IW), and testing circuits. Dispatches may include site surveys, pulling and terminating cables, determining and implementing required pin-outs, installing and configuring equipment, testing and documenting installations, dressing/cosmetic cabling and labeling. Computer, Point-of-Sale (POS), and PBX experience is also helpful.

We are a company that supplies "hands and eyes" troubleshooting support for national and international Enterprise companies on a per-job basis. Work is customer driven, so there is no guarantee of work volume. Please be aware that the position offered is a 1099 contract position.

Many of the jobs that are dispatched will be during standard business hours; however there is the occasional after hours work.

## Required Skills/Experience:

Must have basic understanding of DSX-30, DSX-100, and DSX-200 circuitry and access LA  
 Must have knowledge of telecommunications technology and infrastructure  
 Must have communication skills, both oral and written.  
 Must be able to work with a variety of equipment and hardware at various levels.  
 Ability to work independently and to use common sense and sound technical judgment to complete assignments in a timely manner.  
 Knowledge of personal computers, networks, and general router configuration.  
 Must have a reliable means of transportation, laptop, cell phone and own hand tools.  
 Must be physically able to climb ladders, work in crawl spaces, and lift up to 65 lbs.  
 Must be able to provide a driver's license, proof of legal ability to work, pass an extensive criminal background and drug check.
