Selling my 2004 Toyota Solara SLE V6. Has been the perfect car, just time for something bigger. I am the second owner of this car. It has never been in a wreck. Never had any problems with it. I have all paper work showing oil changes about every 5k miles and all other maintenance done to it. It currently has 109k miles. The only minor damages include normal wear and tear of the leather in the car. The asking price from Kelly Blue Book for this vehicle in "good" condition is \$7,061. I am asking \$6,900. Please text if you would like more information, pictures, or to see the car in.
