I'm a college student at Bryant University. Currently a junior on the Division 1 football team. I am a Global Supply Chain Management major with a concentration in Applied Analytics and a minor in Computer Information Systems, maintaining a 3.64 GPA. Currently we are in the offseason for football and I have a lot of extra free time than I usually do, so I am looking to make some extra money. I can pretty much do any type of odd job that you request. I have worked a moving company during the summers in CT for 4 years as well as a landscaping/plowing company, so my experience with manual labor is excellent. I am also very good at computer work including excel, database management systems, and SQL, as you can see from my areas of study. I also have many years of babysitting and pet sitting experience. I am my own car and a very open schedule. Please contact me if you have any sort of gig, job, or odd job request. Text, phone, and email is welcome.
