

Chicken Coop Tractors (350 USD)

Location **Tennessee**
<https://www.genclassifieds.com/x-261789-z>

We have several different styles and sizes. We also do custom coops and on site coops, just call for a quote!!!

Our base model coop will hold 4 to 6 hens. It is constructed of a knotty pine panels or barn wood pickets and has an asphalt corrugated roof. These can be used as tractor coops or just left stationary. The base model has two 12 x 12 roosting boxes complete with lockable door. We also use a 1/2" x 1/2" cage wire for our runs instead of chicken wire. This model has a 35" x 66" run and a 35" x 42" coop with 2 roosting poles.

Our large tractor has the same features as the base model, with 2 additional roosting boxes. It will hold up 12 hens. The run is 35" x 90" and the coop is 35" x 66" also with two roosting poles.

I have several colors of roof and trim....

Contact us for more details.
