I purchased the pattern for this Ian Stewart wedding dress, that was and is no longer being made, and had the dress made by Justin Alexander.. My husband and I decided to elope and are still happily married..

The dress has never been worn (expect for trying it on) I paid \$2500 for the dress and would love to sell it to a bride to be because it is too beautiful to not be the center of that beautiful day and admired in pictures by children and grandchildren of the lucky woman wearing it on her special day..

It is #VeryVegas

I attached a size chart attached below, the dress is a size 10 but as you can see by the size chart it is smaller than a size 10.. I am 5'11 flat footed (so shorting the dress would be a possibility if needed) in the pictures attached I am only wearing socks so you can see that there is room if you are as tall as I am for a small heel.. My waist is 28" and as you can see in the pictures attached the dress has room around my waist, hips and upper thighs so you can have the dress altered to your body and liking.. My bust is a 36 which also there is room if you are larger on top or would like to wear a push up bra with extra padding if you would like to show cleavage..

I can take any pictures needed, like I said it has never been worn and has been properly stored in my closet since I purchased the dress in 2006.. You won't find another one out there and it would be perfect

for an elegant wedding or worn running around Vegas on your wedding day looking high end in an unique
