00 Gmc Yukon Denali this is a mechanics special truck runs and drives but needs work and has high miles please read whole ad before responding.

Things know to be wrong with it:

- 1) Transmission makes whining noise when put in gear. (No noise in park or neutral and still shifts perfect)
- 2) Steering is a bit sloppy
- 3) Gas gauge not working
- 4) Abs light on
- 5) Key is worn so you have to jiggle it in the ignition

It dose run and drive I drove it 30 miles with no problem

5.7 liter 350 vortec engine (runs perfect)

Automatic transmission

4X4 (4 wheel drive works)

280,500 miles

2 tone leather interior

Heated, power seats

Heated mirrors

Bose stereo with tape, cd and cd changer

Cold A/C

Rear A/C

On star

Truck does not have current emissions due to transmission trips check engine light  
 Clean title in hand asking \$1500 no low ball offers please book value on this suv is still over 5k call
