Hey all, I'm a photographer based in San Francisco. I'm looking to do edgier, more contrasty photos, so I need a model to do a shoot similar to the photos I've taken shown in this ad, but better :) Since this is a trade shoot, I don't need professional models, but you should be somewhat camera friendly :)

HQ photos provided after the shoot, and yes you can bring a chaperone. If you could do your own makeup/hair, that would be great too!
