Looking for a drummer, bassist, second guitarist to play some pure f'ing metal.  
Been playing for a long time in my mid 30's, age doesn't really matter as long as you can jam.  
Looking to do covers and originals-- if it gets serious even better.  
Melodic harmonies and hard driving dynamic shit.

All kinds of influences....  
Arch Enemy, Pantera, Carcass, Arsis, Metallica, Down, Danzig, Ozzy, Black Sabbath and many more.....  
not into religion or right wing politics.  
420!
