

Seeking Creative Vocalist for Indie Music (Denver)

I'm a creative songwriter/guitar player looking to collaborate with someone who can sing and plays an instrument. Male or female, amateur, doesn't matter as long as you also have the creative spark- just as long as I can check out some samples of what you are doing. I would like to keep it small at first and add things as necessary. Think folksy, acoustic, light synth, coffee shops, etc. I'm definitely under the influence of Radiohead, MGMT, Pixies, St. Vincent, Dawes, Arcade Fire, Wilco, Interpol, Dylan, Flaming Lips, Modest Mouse, Beatles, Stones, the National, 80s new wave/punk like Joy Division and Gang of Four, and even electronic stuff like Grimes, Vangelis, Moby, and Daft Punk. Check out my Soundcloud page and YouTube and see what you think. The first 20 or so songs on my Soundcloud page give you a good idea of my creative abilities and limitations:
