I was thrust into homelessness about 3 weeks ago, caught out in the snow a few times and I am now in in Hospital (St.Joseph, the new hospital on Downing and 19th)recovering from pneumonia. I will be released in about 3-5 days (all better, health wise by then!), however I have no where to hang my hat. Please, any kind of help will be greatly appreciated, job, food, cash, advice, a friend to talk to?

You are welcome to call me at the Hospital room #5116, my personal code (as the Hospital calls it) will give you authorization to receive medical info about my condition, that code is 9083. I have stayed at most of the homeless shelters and find them a cess pool of diseases, drunks and crack heads. PLEASE HELP IF YOU CAN,!
