

Online Study for Pregnant Women who use Electronic Cigarettes

Location **Alabama**
<https://www.genclassifieds.com/x-262615-z>

PRENATAL EXPERIENCES
AND PEDIATRIC SLEEP

Are you currently pregnant?

Do you currently use electronic cigarettes?

If yes, you may qualify to participate in a new study being conducted by researchers at UNC-Chapel Hill that will investigate the experiences of expecting mothers.

We are interested in learning about your experiences as an expecting mother. You will be asked to answer questions online about your experiences during each trimester of your pregnancy.

Your total time commitment will be approximately 1 hour per trimester.

Please contact our office for more information.

Thank you!

This study was approved by the UNC-CH IRB (IRB# 13-2674)
