## **FIRST Lego Robotics**

Location Wyoming https://www.genclassifieds.com/x-266086-z

I'm helping start the FLL - FIRST Lego Robotics program starting with the SCSD1 school system. I have a lot of experience and a long list of contacts. However, I'm also trying to start an unrelated business that is taking all of my time. What I'm looking for is someone to guide the process of registering us as a 501(c)3 organization. This is required before I make presentations to local foundations to find funding for the program. The organization will help all northern Wyoming FIRST Robotics programs. It will not be tied to any school district. Montana and middle Wyoming programs are doing well. We need to catch up!
