Pink Floyd Tribute Seeking Guitarist

Location **Arizona** https://www.genclassifieds.com/x-266335-z

We are looking for a second guitarist to help cover the various guitar tracks from the studio albums as well as contribute some harmony vocals. We need a versatile player who can nail the tones, effects, and nuances of these tracks and who is comfortable with both electric and acoustic as well as some slide and alternate tunings. Experience with lap steel would also be a plus. Ability to nail the Gilmour solos also a plus but not necessarily a prerequisite.

The purpose of this band is to bring accurate representations of Pink Floyd's music to Phoenix. We are looking to perform live reproductions of the studio albums in as much detail as possible, focusing primarily on Meddle through The Wall, but still covering material from their entire catalog.

Our current lineup is based around the North Central/Northwest Phoenix area. If interested in auditioning and have a PASSION for PINK FLOYD, e-mail for further.
