Looking for guitarist of a post-hard-core metal band. Preferably 18 through 25 years of age. We have three songs out at the moment, we have most of our own recording studio. We need you to have reliable transportation to have practices! There may or may not be pay depending on gigs if you're a musician you know how that is haha. All five of the guys in the band right now are very dedicated and we remain to stay dedicated as long as we are making music. Music is a passion of all of ours. We were put on CD for Rise or Die Records that got shipped around the USA. We would prefer you to have your own equipment such as guitar amp and so on. If you have anymore questions text me and I will answer any question you have! Our band name is Kingdom of Thrones and if you would like to hear us we are on YouTube with our three songs that we have out! Hope to hear from you:)
