\* JP Gardening - Professional Horticulture Services

- We specialize strictly in garden maintenance, restoration, and improvement. This includes weed removal, dead-heading, pruning, planting/transplanting, hedge trimming, biweekly maintenance, and many other unique services that set us apart from typical yard care companies.

- We use meticulous techniques and incorporate artistic touches to our work that you will not find anywhere else. If you need maintenance and enhancement of the gardens around your home, business, neighborhood entrances or rental properties, we can provide these services that are often overlooked in this industry.

- Because we do not mow lawns or install landscaping, we offer better gardening prices than any nursery and the quality is unparalleled.
