

Tree amp Shrub Removal or Transplanting (Elkhorn)

Location **Iowa**
<https://www.genclassifieds.com/x-267422-z>

* JP Gardening now offers the removal or transplanting of shrubs and small trees up to a certain size. In very little time, our specialized power tool can handle trees and shrubs with trunks up to 6" in diameter, and just about any garden plant/shrub.

- Larger trees can still be cut down to ground-level or below
- We offer \$5 chemical stump treatments that accelerate decomposition or prevent it from growing back
- We are skilled in carefully transplanting as well
- \$75.00 per Hour

* Call/text or email me. For more information and pictures, visit www.JPGardening.com You can view the portfolio on the website and see examples of the differences our work has made in so many parts of Omaha.

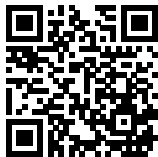

- If you can, I encourage you to text or email me some pictures of the gardens/projects (no need to worry about photo quality; a general idea is all I'll need).
