need a true guitar player. i left a good thing on the mainland, and am trying to start where I left off. i had a band but mostly it was me and my guitar player. his addition to my songs really made them. i am recording right now and would like for someone with similar skill to join, and if not someone who can hear what was played and play it. i have a good mix of songs. some alternative, rock. some chill, ballad. some groovin. i would like to say i'm into ambience and new sounds. i've written all these songs on acoustic, but would like to not keep an acoustic vibe to all my songs, i want them to be bigger than that. i've gigged around town and would like to continue and grow around the island and definitely go around the world with my music. i do not send out demo material via e-mail and i do not have facebook, twitter, soundcloud, etc. eventually i will build a website and register for social media, but right now i just want to complete the songs and get a physical product to market. age isn't a factor, but like i said we are going to have to have a marketable product. i'll leave it at that. peace and thanks for your.
