Our indoor/outdoor female tortie cat hasn't been home since the beginning of January. Our house sitter said she got out just before we got home from our vacation. She answers to Sweetie and is SUPER friendly! Some people think she is declawed but she is not, she's just very careful with them. She was wearing a pink leather collar last time she went out. We are near Jefferson and Shook roads in Harrison Twp. Here are some pictures, please contact us if you have any information. She has been in our family for a very long time and we are.
