Polish tracks on a budget and get your music out there! I am a graduate of The Audio Recording Academy in Toronto, Canada offering remote mixing and mastering services via SoundBetter: https://soundbetter.com/profiles/10485-the-turbulator

I have many years of experience dealing with music and audio. I charge $40 per track (mix and master). I will mix your track until you're satisfied with it. You pay when it's completed. I am also a classically trained musician and can offer editing, arrangement, beat-making, sound design, and more for an added.
