I have some beautiful puppies waiting to find good homes. I rescued the mother, who is a black and white pit. She was out in the rain on a cold night and kept coming back... I eventually brought her in, fed her and fell in love. She had puppies galore and now I am looking to give them good homes... I don't know what the father is. If you are interested, please hurry. I cannot take care of them much longer because I am moving and the new house is not pit friendly. They are weaned onto soft puppy food. They are ready to be cuddled, loved and.
