How it works?

Create a Gig

A Gig is what we call a shipment or delivery. Just create a Gig and we'll match you with a Roadie driver who's headed that direction. Think of it as carpooling for cargo. The Roadie mobile app makes it safe, easy and fun!

Choose a Roadie

Senders post Gigs with details and pictures of the stuff they want to send and Roadies choose the ones they like based on location, price, ratings and reviews. Double acceptance puts both sides in control.

Schedule a Time

No matter what you need to send, chances are there's a Roadie who can deliver it same day, next day, on weekends or whenever. It's a faster, cheaper, friendlier way to get your stuff where it's going.

Track Your Stuff

Keep an eye on your precious cargo with near real-time tracking in the Roadie app. You'll know where your stuff is, and you can connect with your driver along the way.

Easy, right?
