Hi my name is John. I'm an Independent Contractor offering my HandyMan services at an affordable price! I will go over the task with you, explain what I would do and give you an idea on how long I think it will take to complete it. I will write up an invoice for you detailing the job description and itemizing any material cost there may be. I am even fine with doing bids. I look forward to hearing from you. I want you to feel comfortable and at ease knowing what the job will take and that its getting done right!
