I am a professional visual artist/photographer exploring and finding my way into creating more sensual artwork. I was introduced to the art of Shibari (Japanese rope art) by a model I worked with and I'm hooked. I have been learning all I can about this sensual art and creating amazing images from it.

I am seeking a model I can work and build a trust relationship with to further my skills and abilities in this form of creative art and possibly model for my images. To really get to the next level, it really requires a trust between me and my subject to truly surrender. So a little about me then...

I have been around ropes and rigging for many years and learning to re-purpose my skills for this form of art. I have been involved in some form of visual artwork all my life, from painting, sculpting, drawing and of course, photography. Please contact me and lets meet.

DISCLAIMER: These images are not mine but do represent the type of images I wish to create and the quality of work I.
