

Cisco Consultant

Location

California<https://www.genclassifieds.com/x-279722-z>

We are looking for a talented freelance Cisco expert to help out with consulting for a customer of ours in areas of design, configuration, deployment, and troubleshooting of network infrastructure. This is an on-going gig that requires about 5-10 hours per week, on-site in Bay area as well as remote work environment.

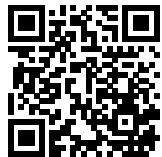

â€? A CCIE credential is very impressive and desirable

â€? 7+ years hands on practical experience required (consulting experience preferred)

â€? Microsoft certifications in addition to above are desired

As this work will mostly be performed on site in the Bay area, there are times when you will be able to work remotely. You should have strong skills with remote support, configuration and troubleshooting.

Please send your resume to the address above for.
