

# Young female Great Pyr Komondor

Location

Arkansas

<https://www.genclassifieds.com/x-279931-z>

Female Great Pyrenees Komondor mix needs new farm. She has been raised with livestock but loves people too. She is great with kids. She is mixed with Komondor but I don't believe she's going to be as big as our Pyr/Komondor male and she doesn't have the tendency to have a dreadlock coat. About 8 months old.

Please understand that she is a livestock guardian breed and that's how she's been raised. She's not been raised as a house dog and she has never been in a fenced yard. She's accustomed to having free run of our farm, never been in the city.

She's been around goats and horses and is fine with them.

She does not need to be rescued so please don't contact me if you want to "rescue" her. She is safe where she is and will only go to the right home. If you are not interested in her, please do not contact me. She does not need to be rescued nor do I need advice on how to pick the right home. I will be careful about who adopts her. I know people mean well, but I don't need more emails offering advice, I need a home for her on

She's about 8 months old. Rehoming fee \$45. Located near Harrison Arkansas. Can possibly meet somewhere for gas money.

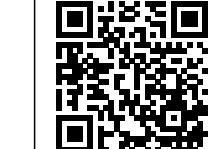

Serious inquiries only
