
Release Lever Allows Document Removal & Re-Centering

- A release lever located on the back of the Saturn2 95 releases the pressure between the two rollers, allowing users to easily remove or re-center documents.

Stylish Design with User-Friendly Controls

- Featuring a slim, professional design, the Saturn 2 95 complements any office decor. When it's time to laminate, a green light and audible beep indicate that the machine is heated and ready to use.
