

Playskool Step Start Walk n Ride (10 USD)

Location Washington
<https://www.genclassifieds.com/x-280152-z>

This walk n ride toy is great for babies learning to take their first steps and continues to be fun to push once they are stable walkers. It then transforms into a ride on toy (through a locking mechanism only parents can activate). The interactive seat is fun to play with in both walking and riding modes, and can be played with long before baby even learns to stand and push it! It has interesting textures and noises, a door to open and close, a gear to shift, knob to turn, and two different.
