## female cat (claymont)

Location **Delaware** https://www.genclassifieds.com/x-280668-z

GenClassificals.com

Looking to rehome a female cat. She is beautiful and enjoys sitting on your lap but is also happy to be independent. I took her in last winter (she was a stray). She has been fixed and all her shots are up to date. She tested negative for feline leukemia. Good cat, but we already have 5. Just didn't want her out in the cold.

Small rehoming
