

INVESTOR NEEDED (MARDELA SPRINGS)

Location

Delaware

<https://www.genclassifieds.com/x-280674-z>

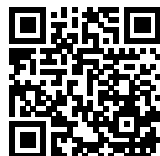

MD will be issuing medical marijuana grow permits in the next couple months. Most don't know this but I have a friend in the MD house that's given me the heads up and guaranteed me I'll be getting one. I'm extremely good at it and want to set up a pound a week grow room to start. I have the building but need the equipment. I need someone to put up 5,000 and for this I'm willing to give up 10% of profit. That comes to about 400 a week or 20,000 a year for a 5,000 investment. Doesn't get much better then that. If interested, get up with me. Its going to be all hydro and aeroponic sea of green growing method so not much space is.
