I am an experienced drummer, my friend is an experienced guitarist and were going to be playing some gigs this semester. Were looking for a lead vocalist and a bassist to play in a fun cover band. We are 22 and 21 respectively and would like to play with other musicians that are in our age range but we are flexible on age.

Were going to play some gigs this semester so ideally you would have some stage experience, but if you are a fun musician looking to jam that works too

The covers we play are a mix of fun pop songs and blues/rock. some examples would be

Some Top 40 Hits
Kings of Leon
The Black Keys
Neighbourhood
and many more!
