

Help with Aloha POS terminal (south kansas city)

Location **Kansas**
<https://www.genclassifieds.com/x-280848-z>

Restaurant with Aloha POS system...we have one terminal down (blue screen, now won't reboot). Looking for help to get it back online as we are currently operating with just the other stations and experiencing some minor bottlenecks at busy times. Must have experience with Aloha POS systems and must be familiar with related hardware, including terminal, touchscreen monitor, receipt printer. We do not need help with setting up server, menu, table layout, etc. - just need the station back.
