MetalRock Vocals Needed for Recording Project

Location   **Massachusetts**
https://www.genclassifieds.com/x-280958-z

I'm looking for a dynamic metal/rock vocalist to record vocal tracks to some tunes. Primarily I'm looking for someone with a big singing voice first and screaming/aggressive vocals second. If you can only scream this won't be a good fit for you.

Recording capabilities are also a must so that you can send me vocal files which can be edited, EQ'd, mixed, and mastered by me. I would just need individual vocals WAVS emailed to me. Ideally I would like to hear some stuff you have recorded previously so in your email please attach or link up to your best stuff. Looking for singing/screaming vocals with enough musical knowledge to harmonize parts when necessary. If interested send me something you've done vocally if possible and I can send over some material for you to hear.

Influences include:

Pantera, Killswitch Engage, Unearth, Alice in Chains, Times of Grace, Lamb of God, In Flames, August Burns Red, Machinehead, Cipher System, Black Label Society, etc
