Mixing and Mastering Engineer has some available time to advise you on your song arrangements, and mix your stems and/or Master your song and album projects.

Any and all projects can be ready for demos or radio play. Decades of studio experience, and a musician for 50 years, I can assist you in a finished product you can be proud of.

I let the dynamics come through, to give the impression of a great live performance. Mastering is not about how many plugins you gum up the mix with.

It is about fulfilling the song and improving the dynamics only when needed. The mastering process is a lot more than just making any and all kinds of music

be a good idea for decades live concert experience, before I can do Mastering. I can help you as a professional musician to know what the music is intended for.

the FIRST ONE OF REFERENCE so that you may hear the difference. I will make to your songs. I can turn a grade B mix into a grade A final mix.

Songs can be submitted online and communication will be there, to get you exactly what you are looking for in a mix, and finished product.
