Doom metal American metal band needs Drummer

Location Minnesota https://www.genclassifieds.com/x-281284-z

Hey guys, our band Living Through Ghosts is looking to gain a new drummer. Our sound is hard to describe accurately, and we do have a decent variety of songs. Its based upon slower tempos and has some sludge and doom influences, as well as traditional metal riffs. We expect a drummer who can keep time and tempo very well, and puts in the work to learn songs as we work on them. You do not need to be proficient in double kick, although it would be really nice. We are pretty laid back guys but take our band seriously.

Go ahead and send and email or text.

If you would like to get an idea of what we sound like, we threw a couple very rough recordings of guitar up on reverbnation if youd like to get an idea of our sound.
