I'm basically a cheap laborer. Any install on your vehicle that you either don't know how to do or just don't feel like doing, I'll do for cheap.I'm a mechanic/handyman/mecp certified audio tech.
A list of examples of installs I can do:
Trailer hitches
Replacement bumpers, tailgates, misc body panels & parts
Tow hooks
Police push bars
Almost any audio
Simple performance mods that don't require welding or heavy machinery (performance cold air intakes, bolt on style mufflers)

If you have anything else you'd like installed that isn't listed, please still contact me to see if I can do it and for pricing.
All pricing is based on job, vehicle and time required to complete.
