This is a very nice armoire/entertainment center. It is very good quality wood not pressboard or laminate. This joker is heavy. I think it is either mahogany or walnut, but I do not know for sure. It has the hideaway doors and open on the bottom. It is pre-drilled if you want to add shelves. It has a built in electrical strip on the top shelf for your entertainment devices, and it has very attractive decorative molding.

Will also trade for Smart TV at least 48" and/or comfortable furniture or beanbag chairs.
