Gooseneck Adapter, adjustable height (440 USD)

Location **Missouri**
https://www.genclassifieds.com/x-281523-z

 I bought this adapter so my brother could go pick up my camper because I did not have a truck yet. It was used one time and never again. It is perfectly fine and new. It can be adjusted to fit many different campers and trucks. It will cost someone close to $500 to order one of these and have it shipped and all the stores you can go to and get one want over $600 for this exact one. Please let me know if you are.
