

J.D.15 BAT WING Rotary Cutter (3000 USD)

Location **Missouri**
<https://www.genclassifieds.com/x-281528-z>

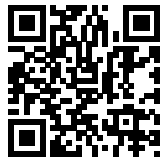

J.D. 1508 batwing rotary cutter. In good operating condition. Paint is good. Always washed after each use, dried and then shedded. It is small 1000 rpm. I pull this mower with either the J.D. 4020 or a Kubota 105. Has solid rubber wheels. Two wheels on the main cutter and one wheel on each wing. The two tires on the wings need to be replaced. The wing on the right needs a spring on it (I think) to hold it in the upright position when shedded. The left wing is fine. Thanks. . Marsha 618-372-873six home 618-407-321nine
