We are shooting HD 1080P 23.98. Ideal camera to shoot on would be Canon 5D or 7D but as long as your camera can shoot 23.98 HD 1080p, brand (Panasonic, Nikon, etc.) does not matter. Also ideal camera operator will have light kit but if not that's ok.

We've documented (25) Mardi Gras parades, (4) Mardi Gras Balls and interviewed about (50) NOLA locals over past 2 years!
