(REV)erend Sharpton is nothing but a pond scum windbag, racist and race-baiter.

He was found to be a liar in the Tawana Brawley incident.
He was found to have started a riot in Crown Heights that resulted in the death of a Jewish man.
He roared in to Ferguson, worked the crowd up, and left before the demonstrations that resulted in assaults, looting and the burning of over 20 businesses.
He was a rat for the FBI; after being caught making a drug deal with an FBI informant.
He is a major tax cheat.
He is not fit to represent the good black citizens anywhere in the US. Sharpton is a self serving cretin. He is only interested in what he can gain from any situation he might place himself in. Sharpton's allegations about being threatened, and his expression of sympathy for the deaths of Officers Ramos and Liu, whom he never mentioned by name, ring very hollow.

This man has no credibility for speaking truthfully. The media should shun this idiot, as President Obama should also do. Nothing any good from having Sharpton participate in anything where he can inject race into the.
