I'm your low cost option for the drudgery of tasks you're tired of doing.  
 I will tailor my work to your specifications and schedule.

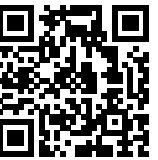

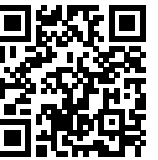

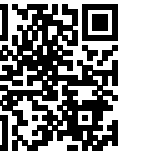

I tend towards the less toxic route- for the sake of my health as well as your own, but I'm not going to greenwash you or your home!

If you are a big supporter of the local yokel thing, give me a call because I'm the real deal. While I don't show up in a uniform in a car with an ad on it, my low overhead means savings for you, and you will get special service from a guy who does his best to pay attention to details. Isn't that what counts?

If you've got errands to run, I can do them for you.

If you are moving, or have moved, I can clean your house for you or give it the dust-up and dust off it needs before being viewed by fresh buyers or renters.

I also do small-scale gardening/yard work, pet-sitting and many other tasks- please see my website and check my inexpensive rates. How does \$25 for two hours of housework sound to you?
