I'm selling a pair of 1930 Chrysler Plymouth four door sedans. The red one was brought over from a barn in Akron OH back in 2001, and the black one was brought up from Knoxville, TN a year or so later as a parts donor car. The red car is very clean and solid. the metal was protected all these years by a red mop paint job. It was driven into the 1950's from paperwork I had found. Both engines are clean, spin freely, and do not appear to have any damage that would prevent them from being driven the way they are. I have the original, very usable, interior for the red car, along with a radiator and shell, front fenders. Between the two, you will have a very complete set up for restoration. If your hot rodding, it would not matter as much. Neither car has been modified or altered from stock. Clean Indiana titles in hand for both cars.

\$7,000, I'll entertain trade offers, the worst I could do is pass.
